

Nice view

ALL SEACAM viewfinders

Our extremely bright SEACAM viewfinders make precise focusing, accurate depth-of-field control and optimal framing easier than ever. Together with outstanding specialists from the optical industry, these viewfinders were developed for the needs under water. Despite the diving mask, special optics show you a clear and up to 3x enlarged viewfinder image and make image composition much easier. All viewfinders are quick and easy to remove for transport, hermetically sealed and very easy to change without any tools needed.

SEACAM S45 Sportsfinder

45° VIEWING ANGLE

ROTATABLE IN 360°

100% FIELD OF VIEW WITH 3X MAGNIFICATION

The SEACAM S45 sports viewfinder has been a pioneering development in uw-photography since its launch and has become an invaluable asset when it comes to smooth work and easy handling. Whether macro or wide-angle: Environmentally friendly and ergonomic photography is easier than ever thanks to the 45° viewfinder.

In this viewfinder you can see all the image data on the edges and the smooth rotation with 4 click-stop positions on the housing enables a quick change from landscape to portrait format.

SEACAM S 180 Viewfinder

HORIZONTAL VIEW AT 180°

100% FIELD OF VIEW WITH 3X MAGNIFICATION

ROTATABLE FROM HORIZONTAL TO VERTICAL

The SEACAM S180 sportsfinder has a straight viewing angle and is bright and brilliant like the S45. With a 3x image magnification, this viewfinder is ideal for quick and precise aiming. This viewfinder can also be rotated and can therefore be positioned almost perfectly in the optical axis of the camera.

SEACAM S S10 Viewfinder

10° VIEWING ANGLE

LIGHTWEIGHT

ROTATABILITY FROM HORIZONTAL TO VERTICAL

With an extremely bright and clear viewfinder image, the S10 viewfinder enables optimal image composition. The 10° viewfinder is angled upwards and guarantees fast object detection as well as environmentally friendly shooting. Particularly impressive is the small design and the low weight of only 400g.

SEACAM G PRO Galilei Viewfinder

GALILEI OPTICS

CRYSTAL CLEAR VIEWFINDER

100% FIELD OF VIEW WITH APPROX. 75% REDUCTION

The smallest viewfinder in our range has a precisely adjusted Galilei optics with a brilliant perspective. The SEACAM G PRO viewfinder reduces the viewfinder image a bit, but still shows the entire image and the reflected data despite the diving mask – perfect for fast-moving action motifs and in the areas of video and film.
